S. RES. 704

Whereas December 12, 2022, marks the 200th anniversary of the establishment of diplomatic relations between the United States and Mexico;

Whereas, over the course of 200 years, the Governments and people of the United States and Mexico have developed deep cultural, economic, and diplomatic relations that have been instrumental in creating prosperity in both countries and throughout the hemisphere;

Whereas, according to the United States Trade Representative and the Department of Commerce, United States goods and services trade with Mexico totaled an estimated \$677,300,000,000 in 2019, and United States exports of goods and services to Mexico supported an estimated 1,200,000 jobs in 2015;

Whereas the United States exports roughly \$20,000,000,000 in agricultural products to Mexico annually, nearly \$6,000,000,000 of which are biotech crops and derived products;

Whereas the government of President Lopez Obrador has pursued major legal and regulatory measures that pose significant risks and uncertainty to cross-border trade, including denying 14 biotechnology applications since May 2018, front-of-packing labeling requirements imposed in November 2020, unilateral certification requirements on all United States organic exports to Mexico imposed in December 2020, the December 31, 2020, Presidential Decree to phase out the use of glyphosate and genetically modified corn for human consumption, the February 2021 Electricity Industry Law, and the May 2021 Hydrocarbons Law;

Whereas the government of President Lopez Obrador has suspended import permits for more than 80 energy companies, has ended permits for energy import facilities, which puts United States investment at risk, and is advancing a constitutional reform bill that would dissolve the power market in Mexico, eliminate independent regulators, and cancel contracts and permits granted to private companies;

Whereas arbitrary and punitive actions against United States businesses operating in Mexico by the government of President Lopez Obrador, such as the recent shutdown of a limestone quarry owned by a United States company that is a critical component of the construction aggregates supply chain

for the southeast United States, are damaging the economic relationship between the United States and Mexico, disrupting North American supply chains, and threatening to undermine the confidence of United States businesses in Mexico as a viable and predictable marketplace and destination for investment;

Whereas United States law enforcement encountered over 1,700,000 migrants attempting to enter the United States illegally through the southern border with Mexico in 2021, and have encountered over 1,500,000 in the first months of 2022, reaching an all-time high of 239,416 encounters in May 2022;

Whereas United States law enforcement is seeing increasing numbers of criminals trying to enter the United States illegally, arresting nearly 6,000 in the first few months of 2022, compared to 10,763 in 2021 and 2,438 in 2020;

Whereas, in May 2022, Secretary of Homeland Security Alejandro Mayorkas declared with regards to encounters of illegal immigrants at the United States southern border, “We’re seeing about a seven-day average of over 7,500 people, so we have not seen a significant decrease in the flows.”;

Whereas U.S. Customs and Border Protection operational statistics showed fentanyl seizures at the United States southern border increased 56 percent in March 2022 compared to March 2021, with over a 300 percent increase from March 2020;

Whereas U.S. Customs and Border Protection noted a 1,066-percent increase in fentanyl seizures at 8 South Texas ports of entry during Fiscal Year 2021, and Texas law enforcement seized enough fentanyl to comprise over 36,200,000 lethal doses during the same time period;

Whereas the Centers for Disease Control and Prevention (CDC) reported a record of 106,000 overdose deaths in the United States, with more than 70,000 of those attributed to synthetic opioids, a substantial amount of which are illicitly produced in Mexico using precursor chemicals imported from the People’s Republic of China and mixed or reshipped by Mexican drug cartels;

Whereas reports from the United States Northern Command indicate that Mexican cartels now control 30 to 35 percent of Mexican territory, with Mexico’s midterm elections in June 2021 being the most violent on record driven by cartel violence and attempts to thwart the democratic process;

Whereas more than 80 politicians were killed prior to the June 2021 midterm elections in Mexico, with the Mexican cartels claiming responsibility for the killings of at least 35 candidates, according to several reports;

Whereas, according to the Initiative on Nonstate Armed Actors of the Brookings Institution, Mexico registered almost 35,000 murders in 2021 near an all-time high, representing 27 murders per 100,000 and primarily attributable to ties related to transnational criminal organizations, while the effective prosecution rate for homicides remains around 2 percent;

Whereas, according to the Initiative on Nonstate Armed Actors, the rivalry between the Sinaloa Cartel and Cartel Jalisco Nueva Generación (CJNG) has violently spread to Colombia, one of the United States’ closest allies in the Western Hemisphere, with CJNG deploying drone-mounted bombs to seize territory and Sinaloa taking over both the legal and illegal economies of the territories in dispute;

Whereas, in 2021, the government of President Obrador disbanded a select Mexican anti-narcotics unit that, for a quarter of a century, worked hand-in-hand with the United States Drug Enforcement Administration (DEA) to tackle organized crime;

Whereas President Obrador has spearheaded legal and regulatory measures to reduce or eliminate the independence of Mexican autonomous institutions and regulators, including the Federal Economic Competition Commission, the Federal Institute for Telecommunications, the Energy Regulatory Commission, and the National Electoral Institute;

Whereas, at a March 2022 hearing of the Committee on Armed Services of the Senate, United States Northern Command Commander, General Glen D. VanHerck, testified that “the largest portion of [Russian intelligence personnel] in the world is in Mexico right now” and “they keep an eye very closely on their opportunities to have influence on U.S. opportunities and access”;

Whereas Mexico voted in the United Nations General Assembly to condemn the Russian invasion of Ukraine, while abstaining from suspending Russia as a permanent observer of the Organization of American States and from expelling Russia from the United Nations Human Rights Council;

Whereas President Obrador has increasingly turned to the People’s Republic of China to finance controversial infrastructure projects, including the Dos Bocas Refinery and the Maya Train, while the People’s Republic of China’s State Power Investment Corporation (SPIC) acquired Mexican renewables power company Zuma Energy during a time when private corporations were fleeing the sector; and

Whereas Mexico remains one of the world’s most dangerous countries for journalists and media workers, including the deaths of 12 journalists to date in 2021 alone; Now, therefore, be it

Resolved, That the Senate—

(1) reaffirms the interest of the United States in mutually beneficial relations with Mexico based on shared interests on security, economic prosperity, and democratic values;

(A) establishing effective immigration controls in the United States;

(C) leveraging existing bilateral extradition treaties and the Palermo Protocols to prosecute transnational criminal actors facilitating illegal migration to the United States;

(5) is deeply concerned about the growing sophistication and territorial control of transnational criminal organizations in Mexico, and reaffirms the urgent need to prioritize a detailed and well-resourced plan to reduce the production and trafficking of illicit narcotics in Mexico, including the illicit traffic of precursor chemicals imported from the People’s Republic of China for the manufacture of synthetic opioids, such as fentanyl, and that such efforts do not result in a breakdown in the rule of law or respect for internationally-recognized human rights in Mexico; and

(6) urges the Government of Mexico to meaningfully reduce the threat of deadly

synthetic opioids, uphold its domestic and international commitments to legal, safe, and orderly immigration, uphold its obligations under the USMCA, respect the independence of autonomous regulatory institutions, and guard against the negative influence of the People’s Republic of China and the Russian Federation in North America and the Western Hemisphere in general.

SENATE RESOLUTION 705—CONGRATULATING THE PRO-LIFE MOVEMENT ON ITS HISTORIC VICTORY IN *DOBBS V. JACKSON WOMEN’S HEALTH ORGANIZATION*

Mrs. BLACKBURN (for herself, Mr. LEE, Mr. HAGERTY, Mr. RISCH, Mr. CRAPO, Mr. INHOFE, Mr. BRAUN, Mr. WICKER, Ms. ERNST, Mr. YOUNG, Mr. RUBIO, Mr. SCOTT of Florida, Mr. CRUZ, Mr. THUNE, Mr. CRAMER, Mrs. HYDE-SMITH, and Mr. MARSHALL) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 705

Whereas the decision of the Supreme Court of the United States (referred to in this preamble as the “Supreme Court”) in *Roe v. Wade*, 410 U.S. 113 (1973), was a blatant act of judicial activism that invented a constitutional right to abortion out of whole cloth, with no grounding in the text of the Constitution of the United States;

Whereas more than 63,000,000 babies have been aborted in the United States since the decision of the Supreme Court in *Roe v. Wade*;

Whereas the decision in *Roe v. Wade* caused great damage to the democratic system of the United States by preventing citizens of the United States from making decisions about the legality of abortion and instead putting these decisions in the hands of unelected Federal judges;

Whereas, far from settling the issue of abortion in the United States, the decision of the Supreme Court in *Roe v. Wade* has exacerbated social tensions, inflamed the politics of the United States, disrupted the democratic processes of the United States, and divided the people of the United States;

Whereas, in the aftermath of the decision of the Supreme Court in *Roe v. Wade*, millions of volunteers, nonpartisan organizations, and lawmakers came together with a shared voice to stand up for the rights of the unborn, who are the most vulnerable among us;

Whereas these supporters of the pro-life movement come from diverse backgrounds, with the shared goal of building a society that celebrates, protects, and cherishes life at all stages;

Whereas the pro-life movement has worked tirelessly over the last 5 decades to reverse the legally unsound and destructive ruling in *Roe v. Wade* and to ensure that the human dignity of every person is protected by law, regardless of age, background, or belief;

Whereas the work of the pro-life movement has been more than simply advocating for the Supreme Court to overturn *Roe v. Wade* and often occurs behind the scenes, with little recognition of the time and talent that countless individuals have invested in the effort to protect life;

Whereas millions of people in the United States have contributed to the cultivation of a culture of life in the United States by marching for life on the streets of cities in the United States, engaging in sidewalk
